

Job description
Specialist in Pulmonology
NU-Sjukvården, Trollhättan/Uddevalla, Sweden

Located in the northern part of Västra Götaland and is situated close to Sweden's second largest city Gothenburg.

The hospital is part of NU-sjukvården, which consists of 5 hospitals with a total of 5500 employees. Reaches 275000 inhabitants in the northern part of Västra Götaland, see map below. NU-sjukvården has a yearly turnover of about 3,5 billion SEK.

Over the next two years the hospitals' activities will be refocused and Norra Älvsborg County Hospital will concentrate on broad emergency medical care and Uddevalla Hospital on more planned care. This is part of the NU Hospital Group's "Healthcare in 2010" development programme where we are working hard to improve quality and efficiency in healthcare processes in close cooperation with hospitals in our neighboring regions. Uddevalla hospital offers a wide range of hospital care and employs approximately 2200 people. The catchment area and number of inhabitants of Fyrbodal is about 275,000.
