

## **JOB DESCRIPTION**

### **Gynaecology and Obstetrics Specialist Hospital Ryhov, Jönköping, Sweden**

#### **Description of the clinics**

The Region's three women clinics take responsible care of women at pregnancy, delivery and gynecological disease. The clinics work also with promotion of sexual health. The delivery units are focused on delivery care and the maternity departments on support after childbirth for the woman, her partner and the newborn baby.

The gynecological clinics and care units of the women's clinics provide advice and support, treatment and care for gynecological disease and abortion. We are a committed and development-oriented clinic forever striving to do the best for our patients. At the clinic we work for continuous improvement, which you will hopefully want to contribute to. There are constantly several development and changing activities in our business, in which you, together with other professional categories, are an important part. A total number of 180 employees work at the women's clinic. We work with healthcare during pregnancy and childbirth, gynecological diseases and abortion and contraception activities. The clinic has regional responsibility for women with complicated pregnancies and especially for those with threatening premature labor. The women's clinic's vision is "Constantly better together - for a good life". Our mission is patient-safe diagnosis, treatment and care in pregnancy, childbirth with post-care, gynecological diseases and prevention in obstetrics and gynecology subject areas.

#### **Competences and qualifications needed for the job**

We are looking for you who are certified specialist within gynecology and obstetrics and want to work with us at the women clinic, County Hospital Ryhov. As a specialist in obstetrics and gynecology at the women clinic, you may have a variety of tasks! We do a lot of teamwork and favor improvement. We give you the possibility to work independently within the subject areas, while at the same time you yourself may develop the areas and participate in the process. Emergency service is included in the job and we appreciate your basic knowledge about surgery for emergency activity. Your role as a specialist involves your collaboration with different clinics in the region, the women clinic in Linköping and before anything else our patients! Your role as a specialist involves your collaboration with different clinics in the region and the women clinic in Linköping.

#### **Emergency care organization**

Emergency service is included in the job and we appreciate your basic knowledge about surgery for emergency activity. On-call activity follows a set duty calendar with preparedness at home evenings, nights and weekends. Response time 30 minutes.
