Job description

Haematology Specialist

Skaraborg Hospital, Skövde, Sweden

General description

Skaraborg Hospital is a part of Region Västra Götaland. Region Västra Götaland with just over 50,000 employees is one of Sweden's biggest employers. It is tasked with offering good healthcare and dental care and providing the prerequisites for good public health, substantial cultural life, good environment, jobs, research, education and good communications. The capital of the region is Göteborg.

Skaraborg Hospital is situated in the old county of Skaraborg. About 260 000 inhabitants live in Skaraborgs 15 municipalities and the biggest are: Skövde ca 50 000, Lidköping ca 37 000, Falköping ca 32 000, Mariestad ca 24 000.

Skaraborg Hospital provides services in four locations in the Skaraborg area: **Skövde, Lidköping, Falköping and Mariestad**. We conduct specialist care in thirty different specialities and more than 4 200 employees work at the hospital. We work systematically from a long-term perspective to give patients reliable care and our employees a fulfilling and pleasant workplace. Our vision is: ***Developing good care – with safety in focus***. The annual budget at the hospital is about 380 000 000 euro and we have about 740 beds.

About 260 000 inhabitants are enrolled into the Skaraborg Hospital and the care is conducted in modern and well-adapted premises.

Haematology in Skövde includes the whole spectre of diagnostics, investigation, treatment and monitoring of benign and malignant blood diseases incl. lymphoma and acute leukaemia, but without stem cell transplantations or radiation treatment. There is also an advanced laboratory in the hospital, national reference for cytology, cytometry-pathology. Close contacts and cooperation with regional hospital SU/Sahlgrenska.

The nursing department has 24 places for haematology and internal medicine, where one corridor with the half of patient places is haematology profiled. There is also a developed and well-functioning day care centre unit.
